EMT/Paramedic Instructional Equipment Purchase (Monitor/Defibrillator)
In an effort to meet the institutional strategic aims for the EMT/Paramedic program, we are recommending the purchase of the Lifepak 15 Monitor/Defibrillator.

The EMT and Paramedic programs are required to teach cardiology, including 12 lead monitoring and invasive monitoring. The program’s Advisory Committee has recommended the purchase of a Lifepak 15 Monitor/Defibrillator to be able to train students on the equipment used by the local
ambulance and fire districts. This will allow the College’s students to be more competitive in the current job market.

Physio Control is the sole source for the Lifepak 15 Monitor/Defibrillator in our region.

It is recommended that the Lifepak 15 Monitor/Defibrillator be purchased in the amount of $26,199.11 from Physio Control of Redmond, Washington.

Enhancement Grant funds will pay 75% and Plant funds will pay 25% for this purchase.

Employee Health and Dental Insurance Renewal

As you know, we sought proposals last year for medical insurance and chose to renew our plan with Coventry. Dental insurance was bid in 2012. Coventry provided a quote of an 11.6% increase to our rates to administer our medical plan and no increase to administer our dental plan. This results in an increase of approximately $47,500 per year in fixed costs to the college.

As we have a partially self-funded plan, the college collects premiums from employees and holds the funds in a separate restricted reserve account to pay claims. Employee premiums are based on our expected claims experience, plus an additional amount to fund claims administration and the costs of reinsurance. The College funds individual claims up to a stop loss of $125,000 and up to an annual aggregate of maximum expected claims of approximately $3 million. Reinsurance covers individual claims over $125,000 after meeting an aggregating specific of $35,000 and total claims in excess of the maximum annual expected claims.

The College has offered the same three plans with minimal changes in coverage for over nine years. Additionally, we have not increased premiums for the POS or QHDHP in six years. The cost of health insurance is on the rise and our claims continue to trend up drastically. As a result, our revenue (premiums collected) is no longer covering our expenses. Coventry projected that a
42% increase in our overall premiums for all plan participants would be necessary to account for the increase in expected costs and the shortfall in revenues. Alternatively, we can revise our benefit levels to incur an estimated 10% savings in claims. Even with revising our benefit levels, the premiums must be adjusted significantly. Our QHDHP has experienced tremendous utilization and requires the most significant increases. To minimize the impact on our employees who are covering dependents, we are recommending passing the increase to QHDHP dependent rates along over a period of two years. We recommend premiums as indicated in Attachment “A” and revising our benefit levels as indicated in Attachment “B”. Further, we will no longer offer the HMO.

For the upcoming plan year, the College will increase its premium contribution per employee per month from $510 to $600. This results in an increase of approximately $300,000 per year for the College. In addition, if we continue to experience claims at the current monthly average, it will be necessary to transfer $150,000 - $250,000 from the general fund to the restricted reserve to cover claims this fiscal year. And, there could be as much as an additional $200,000 transfer in FY16.

Employees may opt for the POS plan at no cost or opt for the QHDHP plan and receive a premium reimbursement of $150 per month. We will not change benefit levels for dental insurance, but will increase premiums by 8% to cover claims. Our recommendation was presented to an Ad Hoc Health Insurance Review Committee at a meeting during which they had an opportunity to ask questions and provide feedback. We have also had discussion at the President’s Leadership Council meetings.

Motion was made by Mr. Winkelman to approve the following resolutions:

BE IT RESOLVED by the Board of Trustees of the Community College District of Jefferson County that approval be granted to contract with Coventry of Missouri for the College’s employee/dependent/retiree medical and dental insurance and the administrative services for the healthcare savings accounts and medical care flexible spending accounts for the period January 1, 2015 through December 31, 2015.

BE IT FURTHER RESOLVED by the Board of Trustees of the Community College District of Jefferson County that approval be granted to continue to offer Jefferson College eligible retirees a Medicare Replacement Policy with United HealthCare of Missouri for the period January 1, 2015 through December 31, 2015.

The motion was seconded by Mr. Davis. Hearing approval from all members present, Board President Meinberg declared the motion carried and the purchases approved.

Trustee Election Filing Notice
Missouri Statutes require that the College give notice of anticipated vacancies and certain information related to filing (RSMo. 115.127). We have been notified by the County Election Authority that the dates of filing, which are established by Missouri Statute, are December 16, 2014 to January 20, 2015. The College is required to publish this information in a newspaper of general circulation in advance of the date on which candidates may file for office.
Motion was presented by Mr. Scaggs to approve the following resolution:

BE IT RESOLVED by the Board of Trustees of the Community College District of Jefferson County, Missouri, to authorize publication of the Notice of Vacancies for the 2015 Board of Trustees Election the week of November 20, 2014, in the Jefferson County Leader.

The motion was seconded by Mr. Winkelman and all members present voted to approve the resolution.

President’s Report

Kudos
On display tonight you will see numerous proclamations—one from Governor Nixon regarding Jefferson County achieving Certified Work Ready Community status; and proclamations and letters celebrating our Library’s 30th Anniversary as a Federal Documents depository from:

Kudos (student music group)
Four Jefferson College Music students have been named to the Missouri All-Collegiate Choir (a college level "all-star" group performing this year for the MMEA conference at Tan-Tar-A in January): Jenna Null (soprano), Samantha Ryan (alto), Billy Astroth (tenor), and Hayden McAnally (bass).

Mercy Clinic
Thanks to all who were able to attend the Mercy Clinic Ribbon cutting yesterday held by the Hillsboro Chamber of Commerce. After a few quick, cold remarks, guests were given a quick tour of the facility.

Foundation
I want to add my congratulations to Rick Vest and Holcim for their induction into the Foundation’s Monticello Society, in recognition of their generous gifts over the past few years. That was a great night of celebration, and the college thanks all our donors for their continued support. I also want to thank the Jefferson Memorial Hospital Foundation for funding our $153,500 Wellness grant and recognize the work of everyone involved in preparing the grant—Tom Burke, Marie Jennewein, and Kenny Wilson.

JRCERT Visit
Last week, Jefferson College's Radiologic Technology program hosted accreditors from the Joint Review Committee on Education in Radiologic Technology (JRCERT). The site Team praised our clinical relationships and they noted that the MoHealthWINS grant has elevated our Program’s ability to provide state of the art labs and student resources. The team reviewed the Program’s self-study and reported findings on 53 required objective including: integrity, resources, curriculum and academic practices, health and safety, assessment and institutional and programmatic data. Of those 53 objectives, the program had one objective that was partially not meet. The program has already addressed the issue and ensures compliance and will follow-up with the JRCERT with corrective action.

The official report of findings will be sent to the Program by the JRCERT in 2-3 months and will then give the Program’s Accreditation status, although we suspect we will be accredited for the maximum of 3 years based on the site visitor’s initial finding.

MCCA Conference
The MCCA Annual Convention was held in Branson Nov. 5-7. It was a busy and informative convention that included officers meetings, professional development seminars, and “how to” seminars hosted by faculty and staff from community colleges around the state. A number of college staff were able to attend, and I have asked them to give some brief highlights to you:

Kenny Wilson
Deborah Allen
Daryl Gehbauer
Congratulations to Tom Schuessler for receiving a Senior Service award, and to Erica Burney, who was awarded a Student Leadership award.

We nominated and MCCA honored Comtrea with a Partnership award for the great work they are doing with our MoHealthWINS grant; Sandy Davis accepted the award on behalf of Comtrea.

**Executive Session**
Since President Meinberg needed to be excused, it was decided to move the Executive Session to December.
