

Effective Lecturing

October 13th – Nov.7th, 2008

Twelve faculty members participated in the **Effective Lecturing** Virtual Workshop held October 13th – Nov.7th, 2008 Faculty like "hearing new ideas from colleagues and just the conversational tone of the discussion board." A faculty member wrote the following in his/her evaluation of the workshop: "The discussion board where people shared their tips was most helpful. You can read and watch videos but it seems like talking to real instructors versus theories is much more valuable."
