New Healthcare-Related Training Programs at Jefferson College

BIOMEDICAL ELECTRONICS TECHNICIAN
The Biomedical Electronics Technician (BET) program will provide you with a hands-on experience that concentrates on general biomedical equipment with an introduction to diagnostic imaging. The two-year program culminates in an Associate of Applied Science degree and will allow you to prepare for the Certified Biomedical Equipment Technician (CBET) exam.

RADIOLOGIC TECHNOLOGY
This free tuition program is available to those who qualify, thanks to the MoHealth WiNS grant. The grant covers tuition and lab fees, but does not include books, college application fees or other incidental costs.

The two-year Radiologic Technology program culminates in an Associate of Applied Science degree. A career in radiologic technology can lead in many directions, as technologists are needed in every health care setting from large hospitals and suburban outpatient clinics to rural physician’s offices. You can also specialize in dozens of clinical areas ranging from prenatal care to orthopedics, manage an entire radiology department, teach, or perform research.

HEALTH INFORMATION TECHNOLOGY
The Health Information Technology (HIT) program is dedicated to producing competent health care professionals. The two-year program culminates in an Associate of Applied Science degree and prepares you for careers as a health information technician with a variety of exciting career opportunities.

RESPIRATORY THERAPY
The RT profession involves the diagnosis, treatment, and rehabilitation of patients with acute and chronic cardiopulmonary disease. In addition to working with state-of-the-art medical equipment, RTs must show compassion, empathy and creativeness.

Jefferson College’s Respiratory Therapy program culminates in an Associate of Applied Science degree. Those who complete the two-year program will be eligible to sit for the National Boards to become a respiratory therapist.

OCCUPATIONAL THERAPY ASSISTANT
Jefferson College’s two-year Occupational Therapy Assistant (OTA) program culminates in an Associate of Applied Science degree. OTAs work in a variety of practice settings, including homes, schools, hospitals, workplaces, community settings, and a variety of other environments.

COMPUTER INFORMATION SYSTEMS CERTIFICATE
This free tuition program is available to those who qualify, thanks to the MoHealth WiNS grant. The grant covers tuition and lab fees, but does not include books, college application fees or other incidental costs.

The emergence of medical health records and technology requires computers and networks to be in top condition, resulting in lucrative opportunities for those that possess the right skills. The CIS—Computer Support Certificate is designed to give you the skills you need, along with the respected industry certifications employers look for. Coursework can also be applied toward an Associate of Applied Science degree.

PHYSICAL THERAPIST ASSISTANT
Jefferson College’s Physical Therapist Assistant (PTA) program culminates in an Associate of Applied Science degree. The two-year program is designed to teach future PTAs how to implement knowledge, skills, and strategies to help reduce pain, improve mobility, restore function, and reduce and/or prevent disability.
